Weld Bench Fume Collector
Models WB-2000 and WB-3000

First work bench designed specifically for welding operations.

- Eliminates moving extraction arms over the welding zone.
- Meets ACGIH guidelines for capturing weld fume—150 fpm minimum capture velocity through the breathing zone.
- Increases workers’ productivity and provides effective fume capture regardless of the workpiece position or size.
- Hinged side-wing panels accommodate longer workpieces.
- Ergonomically designed for operator comfort.
- Easy filter maintenance from clean air side makes filter changeout quick and efficient.
- Standard Ultra-Web FR cartridges, with nanofiber technology, provide higher filtration efficiency and longer filter life.
- MERV* 13 filtration efficiency rating outperforms the competition’s standard filters.
- Helps support OSHA Clean Air Standards.
- Quiet operation.

Note: Customer must have 90 to 100 psi clean air available.

#### Standard Features

- 7-gauge heavy-duty work surface supports 150 lbs/ft²
- Automatic self-cleaning pulse jet system
- 150 fpm backdraft velocity
- Quiet, efficient airfoil fan
- Large capacity dust drawers
- Ultra-Web® FR cartridge
- Pneumatic tool connection
- Sprinkler head
- 10-year warranty
- IEC disconnect

#### Equipment Options

- Prewired controls with after-shift cleaning system

* The Minimum Efficiency Reporting Value (MERV) of this filter cartridge has been determined through independent laboratory testing using ASHRAE 52.2 (1999) test standards. The MERV rating was determined at a face velocity of 118 feet per minute and loading up to four inches water gauge. Actual efficiency of any filter cartridge will vary according to the specific application parameters. Dust concentration, airflow, particle characteristics, and pulse cleaning methods all affect filtration efficiency.

** Based on clean filters.

† Sound level per ANSI S12.34.1988. The actual measured sound level will vary, depending on background noise and room conditions.

Since 1995, Environmental Solutions has been helping businesses, like yours, improve their workplace air quality. As an authorized service center for Donaldson Torit, we offer you a one-stop shop for equipment, service, engineering and installation of the industry’s leading air pollution control systems.

Whether your company requires the removal of oil mist, welding fumes, machining or woodworking dust, graphite, or correction of any other type of air quality problem; we can expertly engineer and install a quality Donaldson Torit solution to meet your unique needs. No system is too big or too small.
